

Swimming NSW Performance Pathway Program

The Swimming NSW Performance Pathway Program has been designed to support the progression of NSW swimmers and coaches. The program supplements work being done in the daily training environment. It incorporates development activities through training and racing opportunities, and through holistic athlete development education specific to each stage of the pathway.

NSW has a strong history of success in the sport of swimming and Swimming NSW is committed to achieving our vision of returning NSW to #1 for Performance and Participation. The Performance Pathway Program is a critical component of our 2032 Strategy.
