

HOW DO I IMPERSONATE MY DEPENDANT?

1. Login to Swim Central and unlock your family by clicking on the guardian profile and entering your family pin.

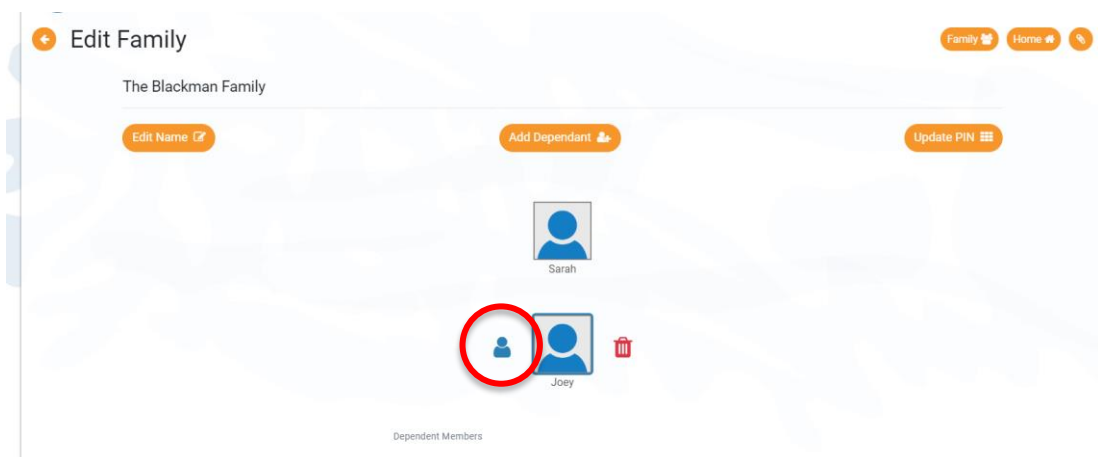

2. As the guardian, click on your profile image to go to your homepage.

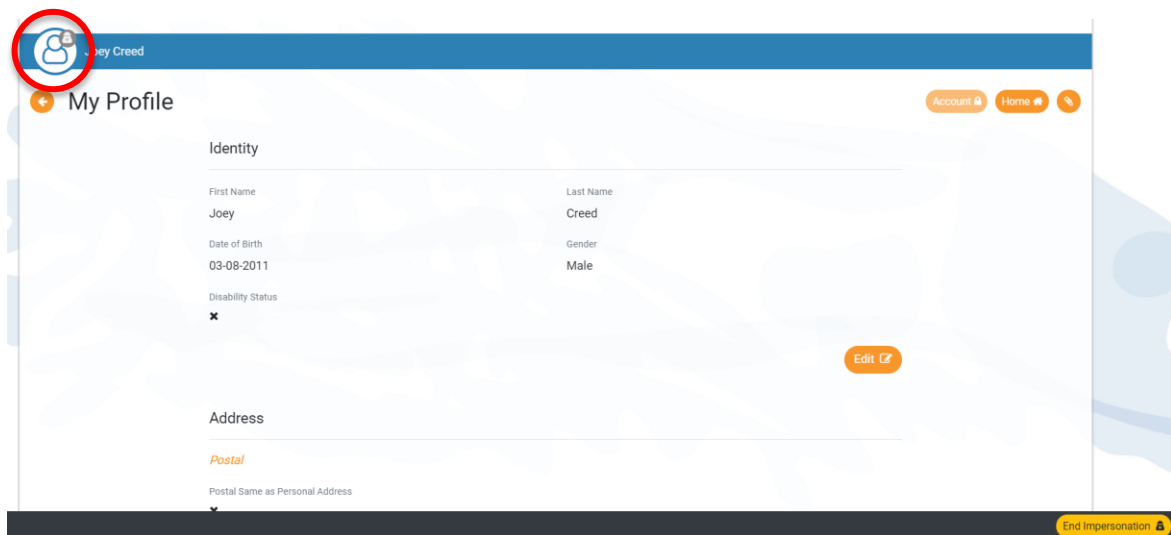

3. From your homepage, click on the orange family setup button. Here, you will be able to see your dependants.

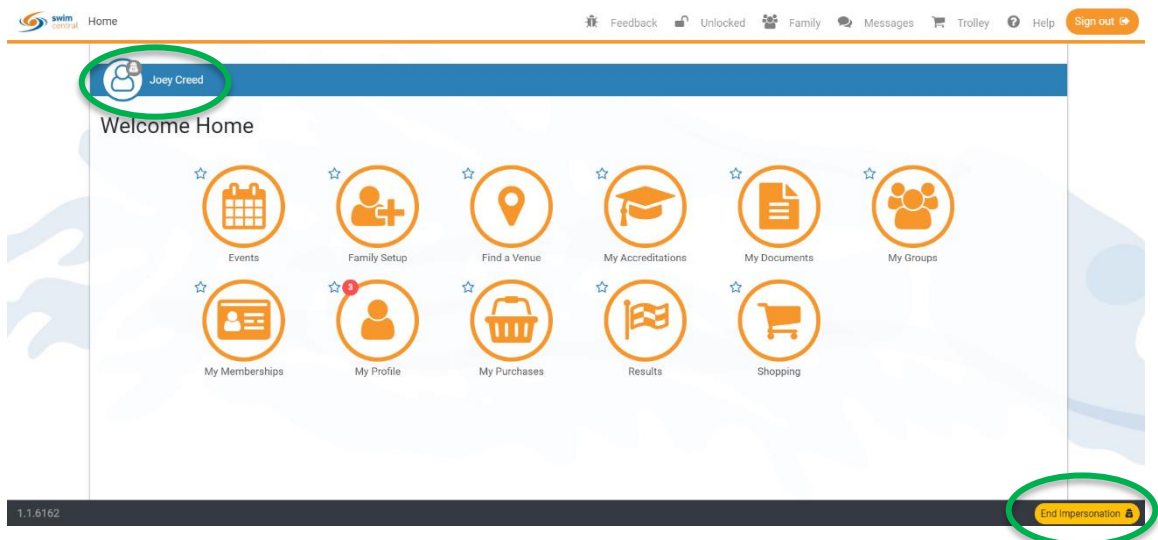

4. Click on the profile image of the dependant you would like to impersonate then click on the smaller profile icon that appears.

- You will be taken to that dependant's 'My Profile' page. Click on their profile button in the top left-hand corner that is partially covered by the incognito image to be taken to their homepage.

- You are now impersonating your dependant. You can check that you are impersonating by ensuring the name on the blue bar at the top of the screen is your dependants, and by checking there is a yellow end impersonation button at the bottom left of your screen.

To end the impersonation:

1. Click on the yellow end impersonation button that is in the bottom right hand corner of your screen. By clicking this, you are ending the impersonation of your dependant and will be taken back to your family homepage.
