Swimmers with identical times shall be assigned their lane positions by draw within the aforesaid pattern. (WA SW3.1.2)
- SW3.1.3 When 50 metre events are contested in 50 metre pools, races may be swum, at the discretion of the Meet Committee either from the regular starting end to the turning end or from the turning end to the starting end, depending upon such factors as existence of adequate Automatic Equipment, starter's position, etc. The Meet Committee should advise swimmers of their determination well before the start of the competition. Regardless of which way the race is swum, the swimmers shall be seeded in the same lanes in which they would be seeded if they were both starting and finishing at the starting end. (WA SW3.1.3)
- SW3.2 SEMI-FINALS AND FINALS
- SW3.2.1 In the semi-finals heats shall be assigned as defined in SW3.1.2

Such swim-off shall take place after all involved swimmers have completed their heats at a time agreed between the event management and the parties involved. Another swim-off may take place if equal times are

registered again. If required, a swim-off will take place to determine 1st and 2nd reserve if equal times are recorded. (WA SW3.2.3)

SW3.2.4 Where one or more swimmers scratch from a semi-final, or final reserves will be called in order of classifications in heats or semi- finals. Whenever possible, event or events must be reseeded and supplementary sheets must be issued detailing the changes or substitutions, as prescribed in SW3.1.2. (WA SW3.2.4)

SW3.2.5 For heats, semi-finals and finals, swimmers shall report to the First Call Room at a time determined by event management. After inspection, swimmers proceed to the final call room. (WA SW3.2.5)

SW3.2.6 At SNSW events the draw system may be used for assigning lane positions instead of a swim-off if agreed by all swimmers. (WA SW3.3)

SW3.3 In other competitions, the draw system may be used for assigning lane positions. (WA SW3.3)

SW3.4 FINAL

SW3.8 AMALGAMATION OF HEATS

SW3.8.1 Where a reduction in the number of heats is possible owing to the withdrawal of swimmers, the Referee shall have the power to amalgamate two or more heats into one heat or all heats into a final, PROVIDED THAT, any alteration of the first heat shall be kept to a minimum.

SW3.8.2 For the purpose of this Rule a swimmer entered in an event who has not reported to the allotted place at the prescribed time shall be deemed to have withdrawn from the event.

PROCEDURE FOR AMALGAMATION OF HEATS

The Call Room Supervisor shall immediately notify the Technical Manager and the Referee of the possibility of an amalgamation. The Referee shall establish the need to amalgamate heats and advises the Control Room Supervisor who delegates the actual reseeding and amalgamation to the Chief Recorder. Any kind of tape on the body is not permitted unless approved by the Referee. As a consequence of injury, it is permissible to tape not more than one or two fingers or toes. Any other kind of tape on the body is not permitted unless approved by the Technical Manager and Referee.

SW11 DETERMINATION OF TIMES AND PLACINGS

At any swim meet where the operation of approved Automatic Officiating Equipment is provided:

- SW11.1 The operation of this equipment shall be under the supervision of appointed Officials. Times recorded by Automatic Equipment shall be used to determine the winner, all placings and the time applicable to each lane. The placing and times so determined shall have precedence over the decisions of Timekeepers. If a breakdown of the Automatic Equipment occurs or it is clearly indicated that there has been a failure of the Equipment, or that a swimmer has failed to activate the Equipment, the recordings of the Timekeepers shall be official (see SW13.3). If there is failure of all timing devices in a lane, then the swimmer may be offered a re-swim. (WA SW11.1)
- SW11.2 When Automatic Equipment is used, the results shall be recorded only to 1/100 of a second. In the event of equal times, all swimmers who have recorded the same time at 1/100 of a second shall be accorded the same placing. Times displayed on the electronic scoreboard should show only to 1/100 of a second. (WA SW11.2)

- SW11.3 Any timing device that is terminated by an Official shall be considered a watch. Such manual times must be taken by three appointed and approved timekeepers. All watches shall be certified as accurate to the satisfaction of the governing body concerned. Manual timing shall be registered to 1/100 of a second. Where no Automatic Equipment is used official manual times shall be determined as follows: (WA SW11.3)
- SW11.3.1 If two of the three (3) watches record the same time, and the third disagrees, the two identical times shall be the official time; (WA SW11.3.1)
- SW11.3.2 If all three (3) watches disagree, the watch recording the intermediate time shall be the official time; (WA SW11.3.2)
- SW11.3.3 With only two (2) watch times recorded, the average time shall be the official time. When this calculation results in a value that is expressed in thousandths of a second, the final digit shall be dropped without rounding. (WA SW11.3.3)
- SW11.3.4 With only one watch time recorded, that shall be the official time.
- SW11.3.5 In the event that the Automatic Equipment fails and a manual backup is used, official manual times shall be determined as above.
- SW11.4 Should a swimmer be disqualified during or following an event, such disqualification should be recorded in the official results, but no time or place shall be recorded or announced. (WA SW11.4)
- SW11.5 In the case of a relay disqualification, legal splits up to the time of the disqualification shall be recorded in the official results. (WA SW11.5)
- SW11.6 All 50 metre and 100 metre splits shall be recorded for lead-off swimmers during relays and published in the official results. (WA SW11.6)

PLACINGS

SW11.8 Where a swimmer is disqualified for any reason, including drug misuse or Doping Control the placing he would have held shall be awarded to the swimmer next placed and the other swimmers advanced accordingly. When the disqualification occurs after the presentation of the awards, such awards shall be recalled and re-presented to the appropriate swimmers as determined by this Rule.

SW11.9 For determination of placings (see SW2.1.12) when Automatic Officiating Equipment is not used and if the times registered by the Timekeepers do not agree with the decision of the Finish Judges and where the time of a swimmer placed second is better, the first placed swimmer and the second placed swimmer shall be credited with the times calculated on the average of the actual times recorded for both the first and second places. The same principle is to apply to all placings. It is not permissible to announce times which do not support the classifications made by the Finish Judges.

NOTE: The Referee shall determine placings when the Finish Judges decision is not supported by the times recorded (see SW2.1.3 and SW2.1.13)
